Claim Rep Draft

Structural Damage Claim Policy

When you have a covered structural damage claim to your real property, you should know:

- We want you to receive quality repair work to restore the damages to your property.
- We will provide you with a detailed estimate of the scope of the damage and costs of repairs. Should the contractor you select have questions concerning our estimate, they should contact your claim representative directly.
- Depending upon the complexity of your repair, our estimate may or may not include an allowance for general contractor's overhead and profit. If you have questions regarding general contractor's overhead and profit and whether general contractor services are appropriate for your loss, please contact your claim representative before proceeding with repairs.
- There may be building codes, ordinances, laws, or regulations that affect the repairs of your property. These items may or may not be covered by your policy. Please contact your claim representative if you have any questions regarding coverage which may be available under your policy.
- If you select a contractor whose estimate is the same as or lower than our estimate, based on the same scope of damages, we will pay based upon their estimate. If your contractor's estimate is higher than ours, you should contact your claim representative prior to beginning repairs.
- State Farm® cannot authorize any contractor to proceed with work on your property. Repairs should proceed only with your authorization.
- State Farm does not guarantee the quality of the workmanship of any contractor or guarantee that the work will be accomplished within any specific time frame.
- It is understood that the contractor is hired by you, our insured, and that they work for you - not State Farm.

If you have any questions or need additional information regarding your claim, please contact your claim representative immediately.

Linda,

Sorry to hear about your problems, but I am not accepting new cases right now.

You can try other experts in the SEAK directory or try www.jurispro.com.

Good luck,

Robert Griswold

Subject: Expert Witness Consult - unmitigated water damage, mold, slip and fall head injury and more

Dear Mr. Griswold:

I just called your office, having found you on the SEAK directory of expert witnesses. I was invited to leave you a voice mail, but typing it would be easier on us both. :D

I would welcome receiving information on your fees and services regarding contractors causing extreme mold and health damage by willful failure and gross negligence to replace a \$10,000 roof.

State Farm's Record-Breaking Growth Linked to Racketeering Enterprises

ReleaseWire

Houston, TX -- (ReleaseWire (http://www.releasewire.com/?utm_source=amedia&utm_medium=feed&utm_campaign=distribution)) -- 06/03/2020 -- Since 2011, State Farm Mutual Automobile Insurance Company has boasted in Annual Reports to Policyholders mailed to consumers and available on the company's website touting its record growth attributing it to 'good management' and the ethical business practices of the company. A civil RICO complaint (4:19-cv-119) filed in the United States District Court for the Eastern District of Texas alleges more than \$200 billion in growth posted by State Farm Mutual Automobile Insurance Company was not due to the lawful efforts of the company's employees, but actually due to the company's engagement in acts of conspiracy and racketeering to defraud customers. The complaint alleges five Individual Defendants, led by State Farm Mutual Automobile Insurance Company Chairman & CEO Michael Tipsord, conspired to create an "association-in-fact" racketeering enterprise known as "the State Farm Group."

The complaint claims Mr. Tipsord and co-defendant Rand Harbert, Executive Vice President and Chief Agency Sales & Marketing Officer of State Farm Mutual Automobile Insurance Company, formulated a plan to change the trademarks owned by State Farm Mutual Automobile Insurance Company and to remove quality control measures that had been in place since the company's founding in 1922. The complaint alleges the "State Farm Group" engaged in complex patterns of racketeering activity with the common purpose to defraud consumers. The complaint alleges the racketeering enterprises conducted bait and switch sales fraud schemes to entice consumers using the false pretense "state farm" was one company. In fact, the insurance products fraudulently misrepresented and sold through the illegal use of mail and wires were from companies owned by State Farm Mutual Automobile Insurance Company.

The sales frauds were exposed when Plaintiffs complained of a \$800,000 homeowners policy delivered to them by State Farm Lloyds instead of the \$5 million policy sold to them by the Defendants' racketeering enterprises. For almost a year, the Defendants' racketeering enterprises made a series of fraudulent statements and false promises assuring the Plaintiffs that "state farm" knew of the mistakenly issued policy and had corrected the problem. Plaintiffs were falsely led to believe that "state farm" had issued a \$5 million homeowners policy and the alleged policy was "in effect." For the Plaintiffs, the racketeering enterprises began to be exposed when they suffered a catastrophic loss of their home due to a fire event, which occurred on February 17, 2017. Plaintiffs' complaint outlines additional crimes committed by subsidiary racketeering enterprises which committed acts of fraud, engaged in crimes including extortion, robbery and intimidation in order to deny the Plaintiffs' \$5 million restitution for loss of their home.

The racketeering enterprises became evident when State Farm representatives stole evidence from the MC State and engaged in criminal acts of extortion, robbery and trespass in order to destroy evidence to prohibit the Plaintiffs from bringing a law suit against State Farm Lloyds in Texas State Court. Shortly thereafter, State Farm Mutual Automobile Insurance Company, in support of the racketeering enterprises and despite knowing State Farm Lloyds to be responsible for claims, fraudulently reported the Plaintiffs as "high risk" in national insurance industry databases. This fraudulent reporting damaged the Plaintiffs' businesses causing a \$25 million-dollar loss, and almost total collapse of the Plaintiffs' livelihood.

Plaintiffs' complaint alleges seven subsidiary association-in-fact racketeering enterprises exist within at least three companies owned by State Farm Mutual Automobile Insurance Company including State Farm Fire and Casualty Company, State Farm Lloyds, and State Farm Lloyds, Inc. The complaint shows multiple association-in-fact racketeering enterprises controlled by the Individual Defendants engaged in extortion, robbery and fraud in the claims processes conducted by the association-in-fact racketeering enterprises embedded in State Farm Fire and Casualty Company and State Farm Lloyds. The complaint shockingly alleges and supports the Defendants' usage of monies derived from illegal activities to establish, operate and manage racketeering enterprises purposefully to protect the State Farm Group's fraudulent sales schemes. Plaintiffs' complaint alleges that the racketeering enterprises engage in commingling of illegally obtained monies to establish, operate, manage and conduct fraud schemes and invest these illegally obtained monies in purposeful acts of bank fraud to purchase shares of publicly traded companies.

In support of the Plaintiffs' allegations of commingling of illegally obtained monies derived from the racketeering enterprises fraud scheme, Plaintiffs submitted two checks from two companies drafted on the same JP Morgan Chase Bank, NA account located in Columbus, Ohio. Both of these checks were signed by Defendant Tipsord and State Farm Mutual Automobile Insurance Company SVP, CFO, and Treasurer John Farney, who is also named as a Defendant. Shockingly, for more than a year, the Defendants have stated in Court that these two companies (State Farm Mutual Automobile Insurance Company and State Farm Lloyds) are not connected in any manner and are operationally separate companies despite the proof of these checks. Plaintiffs' complaint shows the five Individual Defendants are also officers and directors of every company alleged in the complaint to be harboring association-in-fact racketeering enterprises. The Defendants have repeatedly attempted, for over a year, to obtain a dismissal of the Plaintiffs' complaint and the Court is currently considering Defendants' Motions.

Recently, the Plaintiffs filed a response to the Defendants' latest motion, which makes dismissal almost an impossibility. However, whether the complaint is dismissed or not, the case is a blueprint for future regulatory investigators from the Securities and Exchange Commission, state insurance regulatory authorities and State Attorney General's offices in states in which 'State Farm' offers products for sale. It is our opinion there is a great potential for a class action lawsuit on behalf of Automobile Insurance Policy holders of State Farm Mutual Automobile Insurance Company due to the fraudulent representations made to members of the co-operative company. In support of this are regulatory filings signed by Defendant Farney misrepresenting State Farm Mutual Automobile Insurance Company to be a "holding company" which is objectively fraudulent and the profits of the "State Farm Group" never brought a benefit of reduction of premiums to auto policy holders nationwide. From review of the complaint it is clear government regulators should be engaged in multiple conversations regarding allegations made in the complaint and supported in evidence.

About JagrStrat

Our firm provides objective research services and expands publicly available information not typically reported within traditional media outlets as part of our Truth in Reporting and Accountability (TIRA) Project. Our firm provides in depth corporate intelligence services globally in order to provide our clients the most correct information available based upon our clients requests and operational objectives.

INTAKE LINDA AYRES - NOVEMBER 2019 INITIAL MOLD RESULTS

2 messages

WorkComp Linda <workcomplinda@gmail.com>

Mon, Mar 9, 2020 at 10:40 AM

To: Mastery Medical <masterymedical@drlysender.com>

Cc: WorkComp Linda <workcomplinda@gmail.com>

Bcc: "GOTCONTRACTORCOMPLAINTS@GMAIL.COM" <GOTCONTRACTORCOMPLAINTS@gmail.com>, Linda Ayres <lindaayres311@gmail.com>

Dear Dr. Jim,

Attached is the full November 2019 Mold Report; the property was recently remediated with significant demolition. The hygienist who performed this report is completing a new report after demolition, and the amounts of mold were dramatic.

They had been growing since February 2019....and all known water saturated walls were NOT demolished or remediated until March 2019.

[Multiple air quality tests since June 2019 were performed, and it finally evidenced the un-demolished walls as the sources of mold contamination. (see diagram below- blue areas not demolished or remediated.

Additional reports are attached, and I will bring with me the 'mold count' pages . At a glance, in addition to the November report mold species of:

Aspergillus
Penicillin
Chaetomium
Fusarium
Ulocladium
Stachybotrys

The additional reports done since March 2019 also include these species

11/12/19
 Ascospores
 Myxomycetes
 Alternaria
 Basidiospores
 Stachbotrys/Memnoniella
 Bioplaris
 Scopulariopsis/Microascus
 Zygomycetes

9/23/2019
 Penicillium/Aspergillus
 Cladosporium
 Alternaria
 Basidiospores
 Ascospores
 Smuts, Periconia, Myxomycetes
 Hyphal Elements

8/2019
 Aspergillus/Penicillium
 Ascospores
 Basidiospores
 Cladosporium
 Periconia/Myxo/Smuth
 Chaetomium

30

Torula

7/15/19

Altermaria

Ascospores

Aspergillus/Penicillium

Cladosporium

Pithomyces

Stachbotrys/Memnoniella

3/18/19

This report was 3 rooms, sampled twice, 3/17 & 18 (suspicious) and final reports shows outdoors only Cladosporium and Odium;

Indoors shows no contamination other than Background debris, hyphal fragments, pollen, skin cells. Same company performed the 8/20/19

full-house report that also required an addendum to explain their Unacceptable* air quality readings with no recommendations for remediation other than surface cleanings.

It was THIS report that gave the green light for build-back, and upon which the insurance company has put life at risk, and ruined my home, as it looks today.

Reviewing the series of reports certainly tells a fresh story and while I have no real idea of what all the types of molds are, or their consequences, it sure looks like the 'readers in white coats' could conveniently miss a few spores if they are working on behalf of an insurance company, relying heavily on a defense of plausible deniability.

It has taken me this long (since June 2019) to even begin to fathom the extent of damage and harm, and how to begin to look at this reports.

If I can be of any assistance to you in your further rearch, and perhaps others who may know what's going on but need more tangible proof, I hope we can expore those med/legal possibilities as well. I am also quite interested in learning more about the positive or negative charge of mold, and the varies species, and the "locks" and 'keys to unlocks'

PS I do have a BRAIN INJURY (or, as they like to say now, " a history of brain injuries" --- I am injured, not stupid. :/

See you shortly.

Many thanks, Dr Jim -- I look forward to our appointment.

Kind regards,
Linda Ayres
